**WIN-PAK®**

***XPressEntry***

**XPressEntry** enhances the **Honeywell®** access control system, **WIN-PAK®**, with handheld badge readers and emergency mustering. Compatible handheld devices, powered by XPressEntry software, authenticate user's badges or biometric data against the access control database and allow validation of personal names and photos. Handhelds maintain facility occupancy information and permissions to quickly verify credentials from anywhere in either online or offline scenarios.
