

XPID MOUNTS & HOLDERS

Compatible Mounts and Holders for XPressEntry XPID Series Handheld Readers

This datasheet outlines the compatible mounts and holders for XPID series readers, including options for stationary setups, mobile deployments, and hands-free use. Each accessory is designed to enhance functionality, improve ergonomics, and provide secure support for XPID handheld readers, ensuring they remain ready for use in any situation.

XPID-RV179 | Sticky Suction Mount & Holder

- Premium device holder and suction holder designed for firmly mounting to a car or truck's windshield or dash
- 3" arm for adjusting your phone to your personal viewing preferences and 360° swivel operation for total flexibility in positioning
- Mounts securely to dashes, windshields, and other flat surfaces with suction base

XPID-RVPTAMPSNL-B | 4-Hole AMPS Pattern Compatible Holder

- INCLUDED as a kit with the below vehicle mounts, this 4-hole AMPS mounting system is easy to use and engineered from durable composite materials
- Specified for XPID Series Readers, this heavy-duty holder grasps the XPID device and ensures it is securely held in position

XPID-HD001AMPS | Heavy-Duty Seat Rail Mount with 22" Adjustable Arm

22" adjustable arm with tightening knobs, 360° swivel operation, and 20mm metal ball fixing allows for easy, secure positioning

XPID-GN092-L28-AMPS | Car or Truck Seat Rail Mounting Pedestal with Gooseneck

28" adjustable arm and 360° swivel operation for vertical or horizontal viewing allows for easy, secure positioning

XPID-RM88MAMPS | Car or Truck Seat Rail or Floor Mount Pedestal

18" flexible gooseneck, 3.75" mount shaft, and 360° swivel operation for vertical or horizontal viewing allows for easy, secure positioning
