# XPRESSENTRY

## The Handheld Solution for OnGuard Access Control Systems

**LENEL·S2**

XPressEntry handheld readers validate permissions and authenticate credentials against the identity information on record in the OnGuard access control system database on-the-go from anywhere, record entries and exits where door readers are not practical or available maintaining the latest facility occupancy information, challenge credentials within high security areas, quickly muster employees during a real emergency evacuation, and much more.

### SUPPORTED BADGES
XPressEntry leads the industry with the broadest support for badge technologies.

### SUPPORTED BIOMETRICS
Available fingerprint reader supports ANSI 378, ISO 19794:2;4 + facial recognition.

### AVAILABLE WORLDWIDE
FCC, CE, & RCM Certified plus available in ten (10) languages for worldwide deployment.

### SUPPORTED VERSIONS
Proudly works with OnGuard 7.0 – 8.3 access control systems.

## TOP BENEFITS

* Superior security with handheld authentication to confidently control access to and manage any secured space plus ENTRY / EXIT tracking.

* Ensure everyone is safely accounted for during an emergency to improve evacuations, employee safety, and OSHA compliance.

* Use existing security badges for access management to manage attendees and deny access when necessary to events and training.

* Enhanced security with biometrics and multi-factor authentication to deliver enhanced authentication in high security areas.
