XPRESSENTRY

Entry/Exit Mode

Entry Granted

Joseph Walker Badge 435
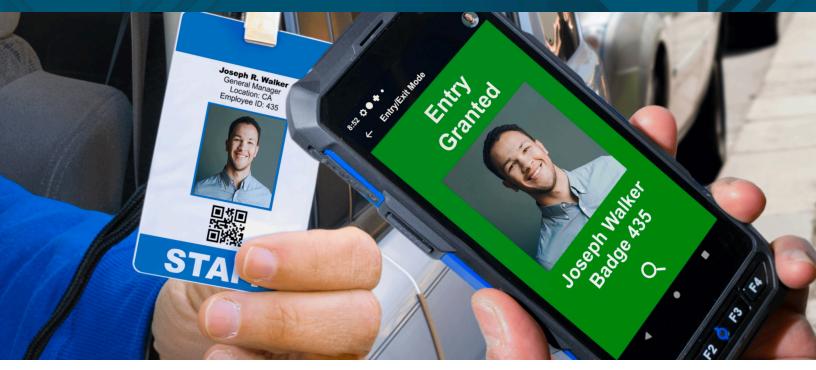

Integration with DSX Access Systems | WinDSX

XPressEntry handheld readers validate permissions and authenticate credentials or biometrics against the identity information on record in the WinDSX access control system database. Record entries and exits on-the-go from anywhere, ideal where door readers are not practical or available. Challenge credentials in secure spaces, quickly muster employees during an emergency evacuation, maintain facility occupancy information, and much more.

Badge Compatibility

XPressEntry leads the industry with the broadest credential support.

Biometrics Available

Fingerprint reader supports ANSI 378, ISO 19794:2;4 and facial recognition.

Available Worldwide

FCC, CE, & RCM certified and supports ten languages for global deployment.

Supported Versions

Proudly works with WinDSX 6.0.31 and newer access control systems.

Top Benefits

- Confidently control access with handheld validation and entry/exit tracking.

- Ensure everyone is safely accounted for in an emergency to improve evacuations, safety, and OSHA compliance.

- Use existing badges to manage access at events and trainings.

- Fingerprint and facial recognition available for multi-factor authentication in high-security areas.
